FastFetch Named to 2020 List of 100 Great Supply Chain Partners

August 5, 2020

PENDLETON, SC – FastFetch Corporation, known for developing innovative technologies to support distribution, logistics, and manufacturing operations, has been named to the 2020 list of 100 Great Supply Chain Partners by SupplyChainBrain. This year's list, published in the August 2020 issue of SupplyChainBrain magazine, includes such well-known companies as IBM, Honeywell, Oracle, SAP, UPS, and FedEx.

According to Brad Berger, publisher of SupplyChainBrain, **"**For 18 years running, **SupplyChainBrain** has published our much-anticipated list of *100 Great Supply Chain Partners* — a select group of companies whose customers recognize them for providing outstanding solutions and services. Our six-month online poll of supply chain professionals requires specific criteria to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance. This year's field of nominees was competitive and inspiring – coming from all sectors of supply chain management."

As explained by Dr. Jack Peck, Co-founder and President of FastFetch, "This is the third consecutive year that FastFetch has been named to the list of 100 Great Supply Chain Partners. We are especially pleased to receive this honor because it comes from nominations by our customers who have recognized FastFetch for being a highly-valued supplier. We are grateful to our customers for nominating us for this award."

Garry Harper, VP for Sales and Marketing at FastFetch said, "We are delighted to be included in among the 100 Great Supply Chain Partners. This recognition shows that our technologies and services are helping companies across the US improve efficiencies in today's fast-paced eCommerce environments."

About FastFetch

FastFetch Corporation, located in Pendleton, SC, develops hardware and software products for distribution, logistics, and manufacturing industries. The company was founded in 2006 and provides technologies for eCommerce order fulfillment, store replenishment, returns processing, and kitting and sequencing for manufacturing assembly lines. FastFetch holds several US and international patents on its technologies and has been recognized by such prestigious professional organizations as MHI (one of 6 finalists for the ProMat Best Existing Product Innovation in 2015), CSCMP (finalist for the Supply Chain Innovation of the Year Award in 2018 and winner of the Supply Chain Innovation of the Year Award in 2019), and SupplyChainBrain (named to the list of 100 Great Supply Chain Partners for 2018, 2019, and 2020). For additional information, visit the FastFetch website (www.fastfetch.biz).
